## International press coverage

.

By [Ingjerd Dønnem](#)

### 2024

[Critical need to advance protein resources as demand for aqua feed set to reach over 100 million tons by 2050](#)

(28.03.2024 [FeedNavigator.com](#))

### 2023

[Mycoprotein from forestry by-products boosts salmon immunity and growth](#)

(26.10.2023 [fishfarmingexpert.com](#))

[New study by Enifer and NMBU shows that farmed fish grow better and healthier with fungi produced from Nordic forestry by-products than with soybeans](#)

(26.10.2023 [news.cision.com](#))

[Study suggests mycoprotein beats soybeans in aquafeeds](#)

(26.10.2023 [thefishsite.com](#))

[New trial results show PEKILO mycoprotein beneficial to salmon growth and health](#)

(20.10.2023 [Aquafeed.com](#))

[Farmed salmon can grow on Norwegian spruce trees instead of Brazilian soybeans](#) (17.01.2023 [aquafeed.com](#))

### 2022

[Agboola Jeleel Opeyemi crowned winner of Nutreco's Young Researchers' Prize 2022](#)

(12.10.2022 Nutreco.com)

[Levaduras en dietas: ¿cuáles serían sus efectos concretos en salmones? \(Yeasts in diets: what would be their specific effects on salmon?\)](#)

(17.05.2022 salmonexpert.cl)

## 2021

[Less Processed BSF Larvae Perform Well in Salmon Diet Trial](#)

(10.12.2021 feedinfo.com)

[Norway launches experiment on feeding pigs and salmon](#)

(07.10.2021 fishfocus.co.uk)

[In Norway pigs and salmons will start feeding with an experimental forage from fir-trees](#)

(07.10.2021 seldonnews.com)

[Growing yeast for feed from Norwegian spruce trees](#)

(30.09.2021 allaboutfeed.net)

[Growing yeast from trees – first successful scale-up of microbial feed ingredients from sustainable resources](#)

(13.09.2021 feedplanetmagazine.com)

[Foods of Norway hits milestone in alternative feed ingredient production](#)

(10.09.2021 hatcheryinternational.com)

[Foods of Norway: Growing yeast from trees for potential use in pig feed](#)

(09.09.2021 pig333.com)

[Growing yeast to animal feed from trees](#)

(09.09.2021 marketscreener.com)

[Spruce-based yeast protein to be trialled on salmon](#)

(08.09.2021 fishfarmingexpert.com)

[Foods of Norway achieves large-scale production of yeast from trees](#)

(08.09.2021 aquafeed.com)

[Tree biomass feed technology makes a comeback](#)

(11.06.2021 rastechmagazine.com)

[Startup ligada a compañía de nutrición acuícola continúa innovando](#)

(21.05.2021 mundoacuicola.cl)

[Nuevo proyecto busca desarrollar alimento para salmones en base a madera](#)

(20.05.2021 salmonexpert.cl)

[Finnish alt-protein producer targets Norway's salmon feed sector](#)

(20.05.2021 thefishsite.com)

[Trees-to-feed firm partners with university to develop salmon protein source](#)

(18.05.21 fishfarmingexpert.com)

[Local feed resources benefit piglets at weaning](#)

(27.02.2021 sciencenorway.com)

## 2020

[New project to develop fish feed on local waste streams](#)

(21.12.2020 Aquafeed)

[In pursuit of sustainability](#)

(21.11.2020 Aquaculture North America)

[The Frontiers Of Food](#)

(22.10.2020 Asian Scientific Magazine)

[Sundere svin med lokaltproduceret foder](#)

(13.08.2020 Landbrugsavisen (DK))

[INTERVIEW: Why Grow Yeast on Tree Waste? To Address N. Europe's Protein Deficit](#)

(07.01.2020 Feedinfo.com)

## 2019

[Lallemand Animal Nutrition joins Foods of Norway consortium](#)

(31.10.2019 Feedstuffs)

Lallemand partners Norwegian research unit that develops sustainable feed ingredients

(29.10.2019 eFeedLink.com)

Feeding the future's farmed salmon

(05.10.2019 ScienceNordic)

New method documents feed nutrient utilization

(08.08.2019 Feedstuffs)

Estudio noruego realiza mejora selectiva para aumentar el crecimiento con menos consumo de pienso

(08.08.2019 MisPeces.com)

This is how scientists found salmon that needed less food to grow

(05.08.2019 Fish Information & Services)

Faux Fish Might Help Aquaculture Keep Feeding the World

(06.03.2019 Scientific American)

## 2018

Norway AgriTech: Punching Above its Weight

(24.10.2018 AgFunder News)

Can European pigs thrive on local feedstuffs like rapeseed meal and DDGS?

(22.03.2018 Feed Navigator)

"Novel feed resources from natural gas and non-food biomass will create a sustainable future"

(20.03.2018 Feed Navigator)

The future of salmon farming. Exploring solutions for a resource-dependent industry

(12.09.2018 TFT - The Forest Trust)

## 2017

Algae and seaweed: Sustainable innovation

(12.9.2017 UiO: Life Science)

## 2016

### More Sustainable Fish Feeds

21.11.2016 Nortrade.com)

### ICDB organizarà workshop sobre biorrefinería algal en conjunto con Foods of Norway

(November 2016 Instituto de Dinámica Celular y Biotecnología (ICDB), Universidad de Chile)

### Investigadora ICDB realiza pasantía en Foods of Norway

(October 2016 Instituto de Dinámica Celular y Biotecnología (ICDB), Universidad de Chile)

### Forest to feed - Norway shining spotlight on yeast protein

(27.09.16 FeedNavigator.com - Poultry)

### Granar blir ersätter soya

(27.09.16 Skogsaktuellt)

### Agrifirm sluit aan bij Foods of Norway

(23.05.16 De Molenaar)

### Developed genomic selection - honoured with prestigious award

(02.05.16 AlphaGalileo)

### Emirats arabes unis. Lancement reussi du salon Viv MEA

(April 2016 La Revue de L'alimentFation animale)

### Norge satsar norskt

(15.3.16 ATL Lantbrukets Affärstidning - Lantbruk)

### Norskir laxar munu ete jolatré

14.2.16, [www.kjarninn.is](http://www.kjarninn.is))

### Feeding the Future Salmon Industry with Trees.

(August 2015-edition, page 17-20 -TheFishSite)

Published 8. November 2015 - 11:38 - Updated 7. June 2024 - 15:06
