[Netto kontantstrøm for elbillading ved deltakelse i aFRR nedregulering: En casestudie av Gardermoen Parkering AS](#)
Mollatt, Mathias (Master thesis, 2024)
Denne masteroppgaven utforsker potensialet for inntekter for Gardermoen Parkering ved å støtte strømnettet gjennom økt forbruk i perioder der Statnett trenger denne res- sursen. Ved å identifisere barrierer og konstruere ...

[Modellering av ledningsnett for opplæring i lekkasjesøk ved Nasjonalt senter for vanninfrastruktur](#)
Snuggerud, Turid (Master thesis, 2024)
Lekkasjeandelen ved norske drikkevannsforsyningsnett er høy i forhold til resten av Europa. 29 % lekkasje oppgir Folkehelseinstituttet for 2022 (Steinberg et al., 2023). Det virkelige vanntapet kan være over 40 %, ifølge ...

[Miljøfokus i prosjekteringsfasen: utfordringer ved dagens praksis og mulige tiltak](#)
Hoel, Marthe-Andrea Braathen; Kongtorp, Frida Vibeto (Master thesis, 2024)
Forskning viser at overgangen til grønnere prosjekteringspraksiser, ikke er uten utfordringer. Mange prosjekter overskrider ikke bare kostnadsbudsjettene, men også miljømål grunnet utilstrekkelig planlegging og kunnskapsmangel ...

[How can we best handle the results from AI segmentation from different data sources](#)
Argaman, Hans-David (Master thesis, 2024)
The thesis is focusing on change detection of building footprints and how DL methods can be implemented in order to make this process more effi cient, at the same time as looking at the credibility of such implementation, and ...

[Automatisering av tilknytning mellom gamle og nye stedsnavn på eldre kart](#)
Andersen, Tord Kristian Fjellheim (Master thesis, 2024)
Denne oppgaven tar for seg problemstillingen å tilknytte gamle og nye stedsnavn med fokus på eldre kart. Dette vil tilgjengeliggjøre analog kartdata på en helt annen måte, da mye i dag må gjøres manuelt. Historiske kart ...

[En vurdering av miljøeffektene ved bruken av massivtre i byggeprosjekter](#)
Møller, Jens Bjørgum (Master thesis, 2024)
De siste årene har massivtre vunnet frem som et bærekraftig og miljøvennlig materiale, hovedsakelig fordi det er fornybart. Trær vokser tilbake etter hogst, forutsatt at skogforvaltningen er bærekraftig og inkluderer ...
